

Automated Signal to MetaTrader 5

Golden Hints Copier

User Guide · Installation & Features

Version 5.91 · MetaTrader 5

1. Welcome

Golden Hints Copier is a professional Expert Advisor for MetaTrader 5 that copies trading signals from the Golden Hints server automatically. It opens trades at market price, manages partial take-profits (TP1–TP3), break-even, trailing stop, and flexible lot sizing — Fixed Lot, Risk %, or Fixed Dollar Risk.

This guide walks you through purchase, license activation, installation, settings, and the on-chart panel. Please read it once before going live.

2. Contents

- 3. Choose a plan & subscribe
- 4. License portal & download
- 5. Install the EA in MetaTrader 5
- 6. Allow WebRequest (required)
- 7. Inputs — License, Lot, Risk, TP, BE, Trail
- 8. On-chart panel (Full & Mini)
- 9. How signals & trade management work
- 10. Troubleshooting & support

3. Choose a plan

Open the pricing page on the website and select 1 Month, 3 Months (best value), or Lifetime. All plans include automated execution, TP management, break-even, trailing stop, and broker-compatible symbol detection.

Choose Your GoldenHints Copier Plan

Start automated copy trading with GoldenHints Copier. Choose the plan that fits your trading needs and enjoy fast execution with advanced risk management.

1 Month

Flexible access for short-term testing and trading.

Answer

SUBMIT

After activation enter the license key in MetaTrader EA inputs → License key. Only Server URL is needed — no API key.

Subscribe form — name, plan, USDT TxID, discount, captcha

4. License portal & renewal

Use the License Portal to check status, expiry date, and download the EA. Enter the same license key you use in MetaTrader 5. Email is optional but must match the order if provided.

License Renewal

To renew and extend your Golden Hints Expert Copier license Please enter your license number and email address correctly

License Portal

Check your Copier license status, expiry date, and download link. Use the same license key that you enter in MetaTrader 5.

License key

The key shown after you submit an order (or received after payment confirmation).

Email (optional check)

If you enter email, it must match the email used on the order.

[View my license](#)

License portal — enter key to view status

When active, you see plan, expiry, and buttons to Download EA or Renew the same plan. Keep your key private — one license is bound to your device/account.

License Renewal

To renew and extend your Golden Hints Expert Copier license Please enter your license number and email address correctly

License Portal

Check your Copier license status, expiry date, and download link. Use the same license key that you enter in MetaTrader 5.

License key	WL7K-3BDA-BCSA-UDL6
Status	active · Active
Plan	3m
Expires	2026-11-12 09:01:38
Email	behbooi@gmail.com

[Download EA](#)[Renew same plan](#)

Active license — Download EA / Renew

5. Install the EA in MetaTrader 5

1. Download GoldenHintsCopier from the portal (or the file provided after purchase).
2. In MT5: File → Open Data Folder → MQL5 → Experts. Copy the .ex5 (or .mq5 and compile in MetaEditor).
3. Restart MT5 or right-click Expert Advisors in Navigator → Refresh.
4. Open a Gold chart (XAUUSD / GOLD). Drag GoldenHintsCopier onto the chart.
5. Enable AutoTrading (Algo Trading button must be green).

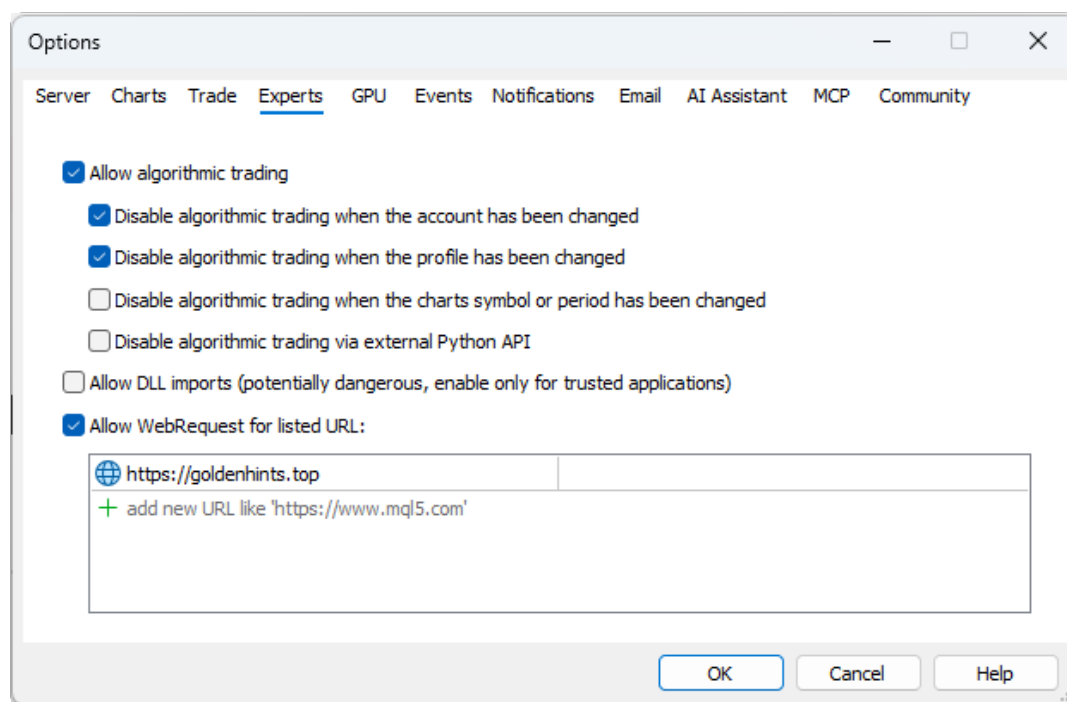

Experts folder with GoldenHintsCopier.ex5 — panel already attached on XAUUSD

6. Allow WebRequest (required)

The EA loads signals from goldenhints.top. Without WebRequest permission, the connection fails.

Go to Tools → Options → Expert Advisors. Enable “Allow algorithmic trading” and “Allow WebRequest for listed URL”. Add exactly: <https://goldenhints.top> — then click OK.

Options → Experts — WebRequest URL

6.1 Experts log checklist

After attach, open the Experts tab. You should see version, License OK, Resolved Symbol, Account mode (hedging/netting), and Magic number. A green path means the setup is healthy.

InpColorTP3	Lime

Inputs — License key filled, lot & risk groups

8. On-chart panel

The panel shows live P/L, connection status (green/red dot), symbol, lot mode, open positions, spread, balance, equity, and Daily / Weekly / Monthly P/L. Buttons: Fixed Lot, Fixed \$, Risk %, Close All, Risk Free, Partial Exit. Pro badge and expiry appear when licensed.

Use Mini to collapse to P/L + status, or – to fully collapse. When the subscription expires, a Renew License button opens the renewal page.

Full panel on XAUUSD chart — Pro active

Mini panel — P/L and status only

9. How trading works

- Signals are fetched from the Golden Hints API (not from Telegram inside MT5).
- Trades open immediately at market price; SL/TP levels from the signal are applied and adjusted to broker digits.
- One position per signal; TP1/TP2 close partial volume (e.g. 33%/33%); remainder can trail or hit TP3.
- Break Even can move SL to entry (plus lock pips) at TP1 or after N pips profit.
- Trailing starts only after TP1 and/or after Break Even if those options are enabled.
- Duplicate signal IDs are ignored so the same signal is never opened twice.
- Magic number per chart symbol prevents Gold lines from appearing on EUR charts.
- Only Chart Symbol: this chart only trades signals for its own symbol.
- Daily loss limits stop new entries while still managing open positions.
- Display Only mode shows flow without opening trades (useful for training).

9.1 Quick reference links

- Website: <https://goldenhints.top>
- Support: <https://t.me/goldenhints>
- Renew: <https://goldenhints.top/license-renewal/>
- API (Server URL): <https://goldenhints.top/wp-json/wsl/v1/mt5/latest>

10. Troubleshooting

API 403

Enable MT5 API in WordPress admin, or enter a valid license if Require License is on.

No connection

Add <https://goldenhints.top> under Allow WebRequest; check firewall/VPS.

License required

Paste the key from the portal into Inputs → License key.

Symbol not found

Set Source Symbol / Broker Symbol, or use SYM_AUTO with your broker's Gold name.

Buttons dead

Use EA v5.83+; re-attach the EA; ensure Algo Trading is on.

Lines on wrong chart

Enable Magic Per Symbol and Only Chart Symbol (default in v5.91).

Expired

Use Renew License on the panel or the license-renewal page.

Thank you
